

 **HOSEMASTER™**

**THE MOBILE  
HOSE CARE  
UNIT**

# THE EASY-TO-MOVE, FULLY AUTOMATED FIRE HOSE WASHING AND MAINTENANCE UNIT

Hosemaster™ Mobile brings the innovation of fire hose maintenance to the field. It's a light-weight, easy-to-move unit designed for effective hose maintenance under various conditions, minimizing secondary exposure to harmful substances.

Unit width  
2200 mm  
(87")

## FEATURES AND BENEFITS

Advanced water recycling system with a 250 litre clean water tank.

Modern sensor technology for real-time monitoring and control.

Extremely low electricity consumption.

The lowest water consumption in the market

Time-efficient operations, servicing up to 20 hoses per hour.

Durable design with high-quality stainless steel/aluminium components for minimal maintenance.

Various options for customization (Standard container, custom lightweight vessel, trailer, built-in).

NG

Easily transportable on its hook flatbed, the Hosemaster Mobile Unit is both reliable and sleek. During transit, the device remains clean and ready for immediate use. The protective container's rear doors and one side wall fully open, granting effortless access to the unit itself.

## ADVANTAGES IN THE FIELD

### Portability

Easily transported to any location, ensuring fire hose safety standards are met everywhere.

### Advanced Water Recycling

Minimizes water usage while supporting cleanliness, crucial in outdoor settings.

### Low Power Consumption

Efficient energy use makes it suitable for various field scenarios.

### Time Efficiency

Fast operation allows for quick response.

**Weight (trailer version, estimate):**  
3140 kg, all inc. 4300 kg

**Electric consumption:**  
Less than 0.15 kWh per hose

**Air compressor (w/ tank + dryer)**  
Capacity: 28 CFM @150 PSI  
Power rating: 7,5 HP

**Diesel generator (Tier 4)**  
Max. power: 44 kVA  
Continuous power: 40 kVA

Unit height  
3000 mm  
(118")

Unit length  
7500 mm  
(295")

## COMMITMENT TO HEALTH & SAFETY IN FIRE HOSE MAINTENANCE

At Hosemaster™, we prioritize the health and safety of firefighters. Our innovative hose care units are designed not just for efficiency, but to create a safer, healthier work environment in fire stations and field operations.

Hosemaster™ Mobile extends safety benefits to field operations. Hosemaster™ Mobile supplies safe and efficient hose maintenance wherever it's needed, reducing secondary exposure to harmful substances.

 **HOSEMASTER™**

Bravery Supported. Safety Assured.
